

Lesson 12

HS192 Introduction to Writing - 2
@ IITGN, 2025-26

Today's practice session

Strategize and plan a presentation

Now we have more specific ideas

Draft a prompt about your plans for the 3-4 minute presentation by 15/30/45 second (including moving in and out, you have 4-5 minutes):

Sample

1. The first 30 seconds: Walking to the stage and set up
2. The next 15 seconds: Greeting in the mother tongue (gesture?)
3. The next 30 seconds: Brief facts about the language
4. The next 30 seconds: Main point -1 (speech)
5. The next 30 seconds: (performance showing main point 1)
6. The next 45 seconds: Main point - 2 (narration with action)
7. The next 30 seconds: Closing remarks
8. The next 30 seconds: Moving out

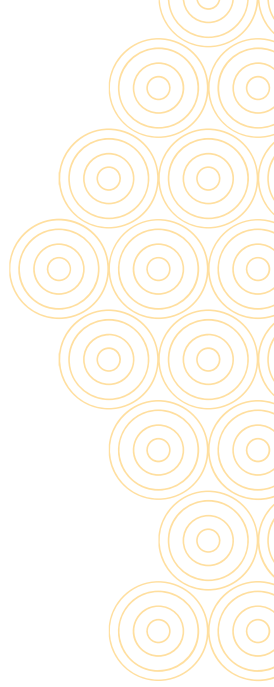

Consider your audience

Who are the target audiences?

- Age, cultural & linguistic background, common knowledge, ...

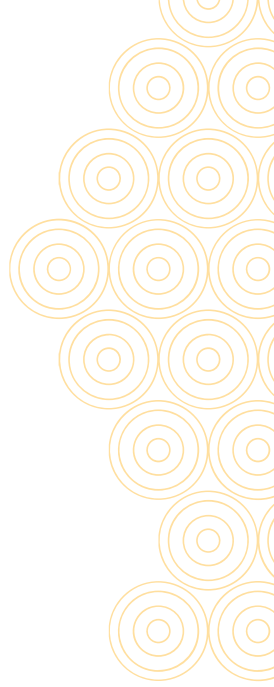

What do you want to let them know?

What do you want them to remember after your presentation?

Tips for making slides

- Assume 1 slide takes 30 seconds to 1 minute; you can calculate the total number of slides you can show.
- Limit your topics/contents according to that; focus on a handful that you want to show your audience the most.
- Work on a Google Slides because different formats will lead to distortion and misalignment.
- If you want to play music for entrance and exit, communicate in advance.

Access to the master slide

Your group representative can get access to the slides; the others cannot get invited.

https://docs.google.com/presentation/d/18x7wNBYfL-j2263p4Eojmhu-eEQ1cfEwtB9K-qIr_kv0/edit?usp=sharing

Complete your slide-making by 8:30 am of February 19; after that, the slides will be locked to get things ready for the event!
